

ELITE TO BE affonda dal principio le sue radici nel mondo del vino e dell'hospitality progettando la Libreria del Vino, espositore per bottiglie a parete divenuto nel tempo un vero e proprio prodotto icona per il brand.

L'idea alla base della LDV è da subito quella di disegnare una famiglia intera di oggetti pensati per svolgere una funzione specifica : arredare enoteche, bottiglierie, bar, negozi, ristoranti, ambienti dedicati al vino nelle sue più diverse declinazioni. Lo sviluppo della linea passa dalla "Libreria del Vino" e si espande nel "WIN-O", portabottiglie con sistema di bloccaggio della bottiglia, per rafforzarsi anno dopo anno con nuovi prodotti.

Nel tempo ha realizzato soluzioni diverse, assistendo i progettisti nelle loro scelte, lavorando con soluzioni sempre più "su misura" e riuscendo così ad affermare il proprio stile.

ELITE TO BE non offre solo un prodotto di serie, ma articoli che si possono produrre in base alle esigenze progettuali e alla sempre crescente necessità di personalizzazione del proprio ambiente.

Questo costante impegno ci ha portati oggi ad introdurre WINETOBE, una collezione di prodotti progettati e costruiti per integrarsi con il wine dispenser di WINEEMOTION, oltre a qualsiasi sistema di refrigerazione adatto, che insieme creano un "format" unico ed esclusivo, dedicato agli amanti del vino.

Gli elementi della Libreria del Vino così come il portabottiglie WIN-O si inseriscono armoniosamente nella parete MODULO e in modo estremamente funzionale nella madia CONVIVIUM.

\* La Libreria del Vino e WIN-O sono prodotti brevettati.

*ELITE TO BE stretches out its roots into the world of wine and hospitality by designing the Wine Library (Libreria del Vino) a wall display stand that has, over time, become an iconic product for the brand.*

*The idea behind the LDV was to draw a whole family of objects designed to perform a specific function: furnishing wine shops, bars, shops, restaurants, environments dedicated to wine in its most diverse forms.*

*The development of the line passes from the “Wine Library” and expands into the “WIN-O”, bottle holder with bottle locking system, to strengthen itself year after year with new products.*

*Over time it has created different solutions, assisting the designers in their choices, working with increasingly “tailor-made” solutions and thus succeeding in asserting its own style.*

*ELITE TO BE offers not only a standard product, but items that can be manufactured according to the design requirements and ever-increasing need for style personalization.*

*Today this constant commitment led us to introduce WINETOBE, a collection designed and built to integrate the WINEEMOTION wine dispensers, as well as all the suitable refrigeration systems, which all together create a unique and exclusive “format” dedicated to the wine lovers.*

*The elements of the Wine Library and WIN-O bottle rack, fit harmoniously into the MODULO wall and in an extremely functional way in the CONVIVIUM sideboard.*

*\*The Wine Library and WIN-O are Patented products.*

A photograph of a wine cellar wall. The wall is covered in a wooden lattice structure. Numerous wine bottles of various shapes and colors are hanging from the lattice, some by their necks and some by their bodies. A prominent red metal railing runs horizontally across the middle of the image. In the foreground, a wooden counter or table is visible, and a vase with yellow and orange flowers sits on the left side.

Il vino non si beve soltanto, si annusa,  
si osserva, si gusta, si sorseggia e...se ne parla

(Edoardo VII 1841-1910)

*One not only drinks the wine, one smells it,  
observes it, tastes it, sips it, and one talks about it*

(Edward VII 184-1910)

A photograph of a modern wine cellar. In the foreground, a long, dark, rectangular bar counter extends from the left towards the center. To the right, a large wooden wine rack is filled with numerous bottles of wine, illuminated by warm lights. The ceiling features exposed metal ductwork and a green exit sign. In the background, a dining area with round tables and chairs is visible, lit by warm, glowing pendant lights.

La vita è troppo breve per bere vini mediocri

— —  
*Life is too short to drink bad wine*

*(Johann Wolfgang von Goethe 1749 – 1832)*

Gli spazi vengono progettati utilizzando moduli standard e soluzioni su misura. In questo caso la parete è composta da moduli F18, F24 e M24 circondati da una cornice in legno.

Tutti gli elementi sono personalizzabili nelle varie finiture metalliche standard oppure a richiesta del cliente.

*The spaces are designed using standard modules and custom solutions. In this case the wall consists of F18, F24 and M24 modules surrounded by a wooden frame.*

*All the elements can be customized in the various standard metal finishes or based on customer request.*

Wineemotion è la scelta giusta in quanto combina un look elegante, con le bottiglie al centro dell'attenzione, funzionalità di gamma superiore e garanzie per i clienti e gli esercenti, grazie ai rigidissimi controlli a cui sottopone i propri dispenser per acquisire le maggiori certificazioni internazionali.

*Wineemotion is the right choice as it combines elegance, keeping the bottles the center of the attention, high end functionality and guarantees for both the customers and the business owners, thanks to the strict controls that Wineemotion puts its dispensers through, in order to achieve the main international certifications.*

Wineemotion, oltre all'utilizzo del gas inerte per preservare il vino contro le ossidazioni, utilizza l'esclusivo sistema ISOL-PLUS che preserva inalterati aroma e profumi, mantenendo perfettamente isolate le bottiglie tra di loro.

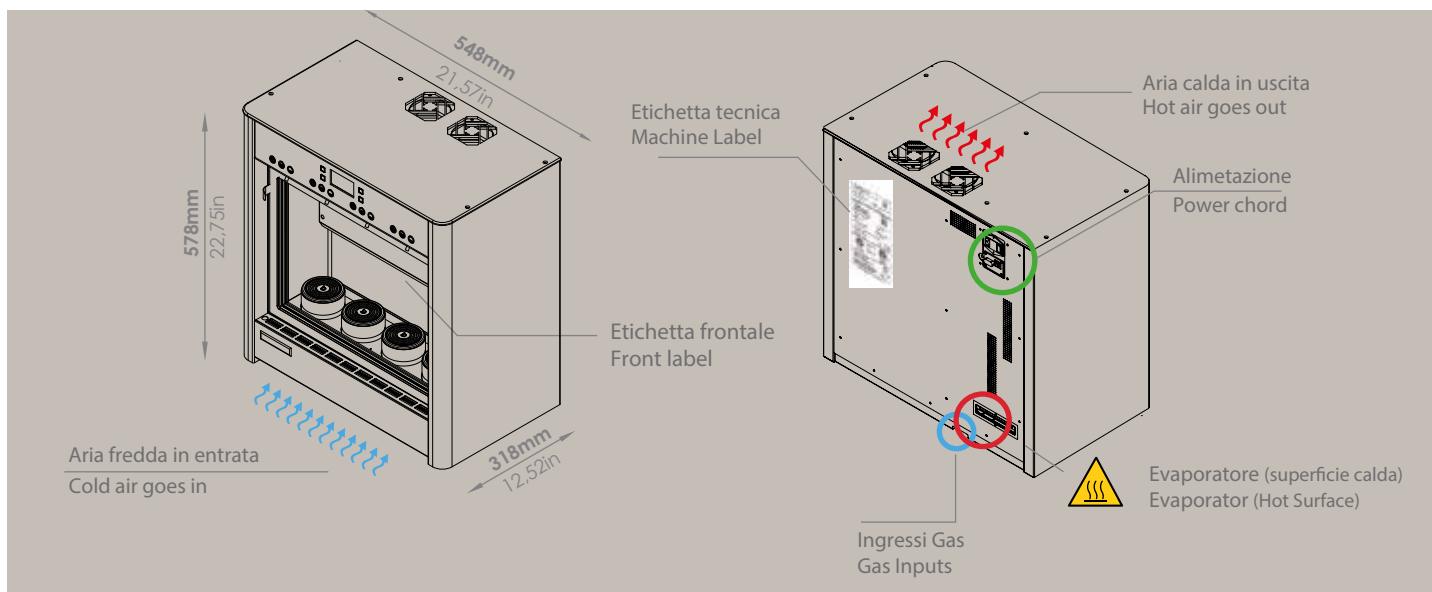

*Besides preserving the wine from oxidation, Wineemotion's unique ISOL-PLUS system, keeps aromas and fragrances intact, keeping the bottles totally insulated from each other.*

I dispenser Wineemotion consentono il controllo perfetto della dose, cosicché ogni bicchiere contenga la quantità di vino che hai scelto, ogni volta.

*Wineemotion equips you with the perfect dosage control so that each glass contains the exact amount you choose, every time.*

Il vino al bicchiere viene servito dal sistema di controllo Wineemotion alla giusta temperatura, garantendone inoltre la massima igiene di servizio grazie al suo sistema di pulizia dell'erogatore.

*Wine by the glass is served by the Wineemotion control system at the right temperature, with no hygiene concern thanks to the tap cleaning system.*

**USO E ATTIVAZIONE DEL SISTEMA**

Il dispenser è attivato in modalità retrobanco (no self service)

**USE AND SYSTEM ACTIVATION**

Dispenser works in behind the bar mode (no wine card).

**TEMPERATURA DI SERVIZIO**

Temperatura controllata da 5° a 18°C.

**SERVICE TEMPERATURES**

Controlled temperature from 5° to 18°C (41° to 65°F).

**DOSI**

Fino a tre dosi diverse tramite tasti touch capacitivi.

**DOSAGES**

Up to three different dosage through capacitive touch keys.

**SISTEMA DI REFRIGERAZIONE**

Moderno sistema di refrigerazione professionale no-frost

**REFRIGERATION SYSTEM**

Use of modern no-frost professional cooling system.

**GAS**

Azoto o Argon alimentare (bombola o generatore non inclusi).

**GAS**

Nitrogen or food grade Argon (cylinder or generator not included).

**ILLUMINAZIONE LED**

Sistema di illuminazione intelligente con risparmio energetico

**LED ILLUMINATION**

Intelligent led system with energy saver.

**SICUREZZA**

Il dispenser include una serratura con chiave.

**SAFETY**

The dispenser comes with a key lock.

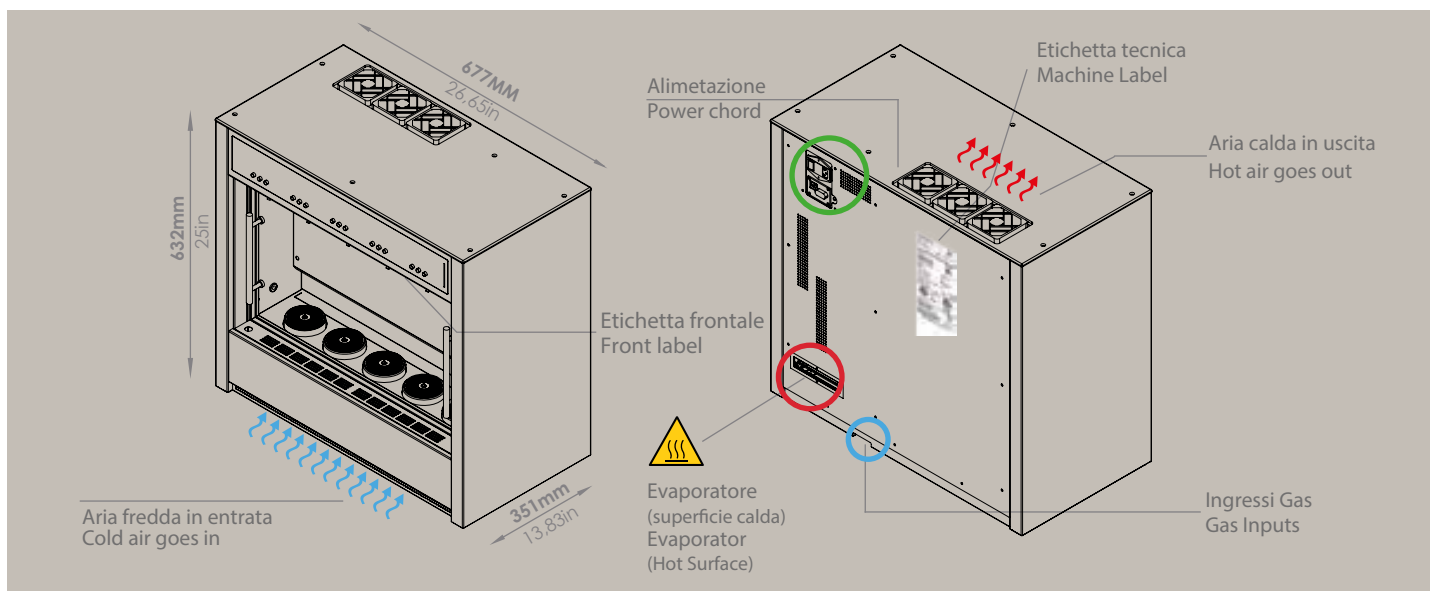

**TECNOLOGIA FLEX**

Grazie alla tecnologia FLEX, il dispenser è disponibile nella versione Quattro e Due+2\*

**FLEX TECHNOLOGY**

Thanks to the flex technology, it is possible for the machine to act as a Quattro or as a Due+2\*.

\*Optional

**USO E ATTIVAZIONE DEL SISTEMA**

Il dispenser può essere attivato retrobanco o self-service con wine card o codice a barre\*

**USE AND SYSTEM ACTIVATION**

Dispenser works in behind the bar mode (no wine card) or self service (with wine card or barcode reader\*).

**TEMPERATURA DI SERVIZIO**

Temperatura controllata da 5° a 18°C.

**SERVICE TEMPERATURES**

Controlled temperature from 5° to 18°C (41° to 65°F).

**DOSI**

Fino a tre diverse dosi tramite pulsanti meccanici di alta qualità.

**DOSAGES**

Up to three different dosage through high quality mechanical buttons.

**INTERFACCIAMENTO TRA MODULI**

Connessione tra moduli e software attraverso cavo LAN o WI/FI\* tramite protocollo TCP/IP

**SOFTWARE CONNECTION**

Connection between modules and software through LAN wire and WI/FI\* with TCP/IP protocol.

**SISTEMA SOLLEVAMENTO BOTTIGLIE**

Sistema di sollevamento tramite pistoni pneumatici.

**BOTTLES LIFTING SYSTEM**

Lifting system with pneumatic pistons.

**WINE CARD**

Sistema con carta chip.

**WINE CARD**

Chip card system.

**SISTEMA DI REFRIGERAZIONE**

# Materiali

— —  
*Materials*

I materiali sono uno dei punti cardine della nuova collezione ELITE TO BE. Materiali autentici come il legno nelle sue differenti essenze, con la profondità delle sue venature ed il calore di una materia viva. Superfici metalliche estremamente eleganti e sofisticate come il nickel, il bronzo, l'ottone e il piombo nelle finiture diamantate. Piani e rivestimenti in argilla naturale dove l'increspatura e la rugosità diventano il valore aggiunto di questa esperienza sensoriale e infine la riscoperta di lavorazioni artigianali passate, come il mosaico in pietra, rivisitate in chiave moderna e capaci di creare pezzi unici e inimitabili.

--

*The materials are one of the key points of the new ELITE TO BE collection. Authentic materials such as wood in its different essences, with the depth of its grains and the warmth of an alive material. Metallic surfaces extremely elegant and sophisticated like nickel, bronze, brass and lead in the diamond effect finishes. Tops and coverings in natural clay where the rippling and roughness become the added value of this sensory experience and finally the rediscovery of the old craftsmanship, like stone mosaic, redesigned in a modern way and able to create unique and inimitable pieces.*
